COURSE DELIVERY

Training delivery will be a combination of training provided by the trainer/assessor and an appropriately qualified workplace supervisor/tradesperson. Training will be one on one at the workplace, scheduled in collaboration with the employer prior to commencement and documented in a Training Plan. This can be varied to suit the individual learner's needs. Training is 'blended' with components (theory units) completed online with supporting practical assessments conducted 'in the field', onsite. Online full training is also available for some programs. If there are any changes to any program temporarily, this will be posted on our website under the section delivery. This may happen in instances where programs are being updated, re-written and/or improved upon.

We endeavour to ensure that all online programs are up 99.9% of the time and that ease of access for students is paramount. However, in instances where online LMS functions are experiencing technical issues we will contact you and post this information on the course/program page within the actual qualification notes.

METHODS OF ASSESSMENT

During the course, you will be required to undertake a range of assessment activities related to the units of competency in which you will be enrolled. These assessment activities will consist of written assessments (may be conducted orally if student's reading/writing skills are not at the appropriate level), practical observations, referees/employer/supervisor reports and/or projects and assignments. The practical observations will be undertaken at your workplace. Assessments may also be managed online through the Tecskill LMS system.

For training partially delivered in the workplace, agreements will be put in place with the employer for access to the appropriate facilities and equipment required for the delivery of training and assessment. An Employer Resource Assessment will be undertaken prior to any Training Plans being developed. You will be expected to supply your own hand tools or can be done by the employer. TECSKILL will provide the learning and assessment materials.

Other training will be conducted in the Tecskill office or assessments done remotely through the nominated form of communications (email, phone, meetings, face to face, simulations etc)

Assessments will also be conducted online for some nominated programs. Please speak to your trainer for specific deliver methods of training.

RECOGNITION OF PRIOR LEARNING (RPL)

RPL is the formal recognition of skills and knowledge gained as a result of work experience, completion of apprenticeships, previous training and skills learned across a period of time within a specific industry.

If you believe that you have existing skills and knowledge in some aspects of the qualification, program in which you are enrolled it is possible to reduce the amount of training required to complete the qualification and therefore complete your studies early.

Request a self-assessment to assess your skills against each unit of the program. You can do this by contacting Tecskill. This can be sent to you to complete and is a good point to start and see if you have the required skills to apply for RPL.

In order to be awarded RPL for a unit of competency you will need to provide evidence of your existing industry skills and knowledge. This evidence can be in the form of a portfolio, which may contain the following:

- current resume
- copies of existing qualifications, awards, workplace tickets, licences
- letters detailing the type of work, positions held and other relevant information of employment
- provide contact details for a minimum two industry referees who can confirm your industry knowledge and skills in context. These must be current.

- Third party verifications. Formal verification of skills by a superior
- any other supporting documents relating to your claim for any competency. These are described as industry documents and maybe documents you use every day or only sometimes.
- Some industry documents may include;
 - o Other qualifications attained
 - o Written references
 - o Commercial documents
 - o Kills sheets, BOP documents
 - o WHS documents
 - o Reports or similar documents...etc.

To have skills formally recognised the trainer/assessor must ensure the candidate's knowledge, skills and supporting evidence address all of the requirements of the unit of competency, qualification and training package rules. In addition, the trainer will conduct a review / analysis to determine any gaps in knowledge.

If you do not indicate RPL on the enrolment form, you can apply for RPL at any time during the learning process by approaching your Trainer.

Students undertaking RPL will have three months to undertake to RPL process. This means all students enrolled to complete a qualification by RPL will be required to provide all documents and complete all required assessments within 3 months from the date their enrolment was lodged. Changes to this are conducted under discussion with a TECSKILL representative and will be determined on a case by case basis.

RPL ASSESSMENT POLICY

A student who is seeking recognition of prior learning (RPL) with Tecskill is given two (2) opportunities to provide the required evidence for the units of competency within the qualification.

Each student must have an onboarding conversation with the assessor about their work history and their ability to access specific RPL evidence. After the onboarding call, the assessor will email the evidence list to the student. Once this has occurred, the student must adhere to the timelines below regarding evidence collection.

In the first instance:

- Each student is given up to 10 calendar days to gather and submit their RPL evidence once the evidence list has been sent.
- The assessor has up to 20 calendar days to review the evidence and email the RPL outcome to the student. This is a total of 30 days in the first instance.

If evidence gaps are identified in the student's first submission, the student will have the opportunity to address the missing evidence and submit the documents to the assessor. Once again, the student will receive up to 10 calendar days to submit their evidence and the assessor will communicate the RPL outcome to the candidate within 20 calendar days. The RPL has now been active for 30 + 30 days = 60 days.

After the second attempt, if the student is unable to achieve full RPL for one or more units in the qualification, the assessor will compose a gap training/assessment plan for the student. The student must complete any formal assessment activities and workplace tasks identified by the assessor. The program duration will vary for each student depending on the number of units approved through the RPL process and the gaps identified by the assessor.

This will occur in Month 2 or Month 3 from the date of enrolment depending on the amount of evidence supplied in Month 1.

We try to assess the best application which we will talk to student's about during the first initial stages of communication.

Contact TECSKILL to discuss this in more detail.

CREDIT TRANSFER

TECSKILL recognises the AQF qualifications and Statements of Attainment issued by another RTO. Any Student who has undergone training at another RTO is entitled to gain recognition for their unit of competency completed.

If an applicant wishes to seek recognition of the unit of competency/qualification, they must present the certificate/statement for sighting, so this can be verified.

In some cases, where the last letter of the competency code has changed from 'A' to 'B' or 'B' to 'C' TECSKILL will refer to the training package to ensure equivalency. Where units of competency for credit transfer have not been identified as equivalent, gap training will need to be completed before recognition can be granted or full training of the new unit can be conducted.

Tecskill recognises the need for students, staff including Trainers & Assessors and all staff attached to training outcomes and other clients to have confidence that the Registered Training Organisation (RTO) will ensure the principles of natural justice and procedural fairness are adopted at every stage of the complaint and appeal process.

Tecskill has a duty of care in ensuring students study in a happy environment, free of coercion, unfair treatment or harassment. All complaints will be registered into the Tecskill CRM for future reporting and administrative purposes.

Nothing in these procedures limits the rights of individuals to take action under Australia's Consumer Protection laws.

Tecskill is constantly reviewing and updating policies, as a grievance helps us to fix a problem and assists with continuous improvement.

COMPLAINT OR APPEAL

A complaint would generally be directed at the general performance of Tecskill or its staff such as trainers and assessors in the delivery of our services and other students.

In the first instance complaints or appeals should be discussed informally with the staff or trainers involved. Where possible disputes are managed and resolved informally. However, if the complaint or appeal cannot be managed informally the students can submit a formal complaint or appeal statement via email.

The complaint or appeal will be dealt with promptly. All formal complaints will be dealt with by the CEO and contact will be made within 10 working days to arrange a time to discuss your complaint or appeal. You are welcome to bring a friend or advocate to this meeting if that is your choice. Internal complaints and appeal services are free of charge.

You will be provided with a written outcome on your case including the rationale for the decision. If you are satisfied with the resolution agreed actions will be implemented and the complaint or appeal will be closed.

EXTERNAL APPEALS

Where no mutually acceptable resolution can be found, you may wish to have the matter dealt with through an external resolution process. Tecskill will assist you in contacting the appropriate agency.

RECORD KEEPING

A written record of all complaints handled under this procedure and their outcomes will be maintained for a period of five years. These records will remain with the students file and cannot be accessed without a written request to the CEO.

ASSESSMENT APPEAL

If a student does not agree with an assessment outcome, they should first discuss the matter with the trainer/assessor concerned and if the complaint cannot be resolved at this point then the student can lodge an Assessment Appeal via email. The appeal will follow the same process as a complaint and will be investigated by the CEO.

HOW TO MAKE A COMPLAINT OR APPEAL

1. Initial complaint or appeal should be discussed informally with the applicable staff involved or Manager. In the first instance this will be the Training Operations Manager.
2. If the complaint or appeal is not resolved informally, the student may choose to lodge a formal complaint or appeal in writing via email to admin@tecskill.com.au
3. The complaint or appeal is recorded, and the CEO will make contact within 10 working days to arrange a meeting.
4. A meeting will take place to negotiate between all parties in an attempt to find a resolution agreeable to all parties. All appealed assessments will be re assessed by an alternative trainer/assessor.
5. Written documentation on the outcome and resolution is provided to all parties within 30 days and actions are immediately implemented.
6. If a student is not satisfied with the outcome and the above processes are not effective in resolving the issue, then a suitable independent person or panel, will be engaged to aid in the resolution of the issue. All complaints will be registered into the Tecskill CRM for future reporting and administrative purposes.
7. The complaints procedure ensure that the principals of justice and procedural fairness are adopted at every stage of the complaint and appeals process.

The independent person or panel will need to be agreed upon by both the student and Tecskill, this could include another external trainer assessor, or it could include independent commercial mediators such as Resolution Institute. They can be contacted on 1800 651 650 <https://www.resolution.institute/> for further information.

- warning 3 written warning
- suspension of enrolment formally notified
- termination of enrolment and forfeit of fees

The student will be given three written warnings, from the CEO, before more serious disciplinary action is taken. At each step, the student will be warned of the consequences should s/he continue or repeat the offence. If no further problems occur, further disciplinary action will be ceased. Some of the main factors examined when determining appropriate disciplinary action are:

- seriousness of offence repetition or duration of offence
- prior offences and disciplinary actions
- previous responses to disciplinary actions and any current disciplinary action
- Communication

Where the behaviour is deemed to be of a serious nature an immediate suspension of training will apply. Behaviour that would be of a serious nature is:

- attending training under the influence of drugs and/or alcohol
- sexual harassment
- acting in an unsafe manner that places others and themselves at risk, disobeying WHS directions
- deliberate and wilful damage to TECSKILL or another student's property
- bullying
- verbal and physical abuse towards students and/or trainers/assessors.

For apprentices/trainees any suspension of training will be reported to DET.

A written record of all disciplinary actions taken will be kept with the student's File. These reports remain an active part of the student's record for one year after the offence. If the student does not commit any other offences during that time, the report will become inactive. The report will, however, still remain a part of the student's file.

Any person who receives written notification to suspend training and/or has their enrolment cancelled does not limit the person to the right of appeal through our Complaint and Appeal process.

The student has seven (7) days from the date of notification in which to lodge a written appeal to the CEO. If the student is unhappy with the outcome of the process, they have the right to make an appeal using external processes as indicated in the Complaint and Appeal Policy.

TRANSITION POLICY
